                                                                                                                                                                                                                                                                                                                                                                                         Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Sequence

Okazaki, N., Kikuno, R., Ohara, R., Inamoto, S., Aizawa, H., Yuasa, S., Nakajima, D., Nagase, T., Ohara, O. and Koga, H.
Prediction of the coding sequences of mouse homologues of KIPA
gene: II. The complete nucleotide sequences of 400 mouse
KIPA-homologues ChNRs identified by screening of terminal sequences of CDNA clones randomly sampled from size-fractionated libraries
LDNA Res. 10, 35-48 (2003)
DNA Res. 10, 35-48 (2003)
SS (Azaki, N., Kikuno, R., Nagase, T., Ohara, O. and Koga, H.
